1. What was your life like before you came into our office?

My back & neck were in such pain that I couldn't complete ~~every~~ every day tasks. I was not sleeping at all well. Every day was a painful struggle. I was very unhappy with my life. My range of motion was very limited.

2. How did you find our office?

I looked on the internet for chiropractic services and read reviews. I was drawn to this practice due to my research.

3. What has life been like since you came into our office?

This has been a long road to being pain-free, but I am pain free and enjoying every aspect of my life. I'm back to the gym, back to hiking, kayaking and my work load has been much easier to manage.

4. What would you like to tell someone who is considering chiropractic?

I would say to do research, ~~do research~~ ~~do research~~ If you go to a chiropractor and are uncomfortable, uneasy, or unsure - keep looking. I, myself, would travel a long way to come to this office as my experience has been wonderful.
